

April 8, 2025

Good morning IS201! It's Celine, from 814, and I'm here this Thoughtful Tuesday on behalf of the S.E.A.L. Team.

Today is April 8th, 2025 also the day of a total solar eclipse! It's a rare occasion when the moon briefly blocks the sun. Across parts of the country, people will be looking up as the moon moves perfectly between the Earth and the sun, turning day into night for just a few minutes. It reminds us that even something as constant as the sun can be temporarily hidden. In the same way, we all face moments where things feel tough, dark, or uncertain. But just like the eclipse, those moments pass. The light always comes back. Let it remind you that challenges are temporary, and that you're capable of getting through anything.

That's all for today and have a Twinkle Tuesday 😊
